

## CALL FOR PAPERS

### 6th International Conference on Security and Privacy in Communication Networks (SecureComm '10)

September 7-10, 2010, Singapore

<http://www.securecomm.org/>

#### General Chair

Feng Bao (I2R, Singapore)

#### Program Chairs

Sushil Jajodia (George Mason University, USA)

Jiaying Zhou (I2R, Singapore)

#### Workshops Chair

Javier Lopez (University of Malaga, Spain)

#### Publicity Chair

Sara Foresti (UniMi, Italy)

#### Web Coordinator

Ying Qiu (I2R, Singapore)

#### Local Arrangements Chair

Shen Tat Goh (I2R, Singapore)

#### Conference Coordinator

Gergely Nagy (ICST)

#### Technical Program Committee

Claudio Ardagna (UniMi, Italy)

Vijay Atluri (Rutgers University, USA)

Steve Barker (King's College London, UK)

Raheem Beyah (Georgia State University, USA)

Marina Blanton (University of Notre Dame, USA)

Carlo Blundo (University of Salerno, Italy)

David Chadwick (University of Kent, UK)

Ee-Chien Chang (NUS, Singapore)

Hao Chen (UC Davis, USA)

Kefei Chen (Shanghai Jiao Tong University, China)

Yan Chen (Northwestern University, USA)

Mauro Conti (VU Amsterdam, The Netherlands)

Bruno Crispo (University of Trento, Italy)

Frederic Cuppens (Telecom Bretagne, France)

Nora Cuppens-Bouahia (Telecom Bretagne, France)

Anupam Datta (Carnegie Mellon University, USA)

Sabrina De Capitani di Vimercati (UniMi, Italy)

Roberto Di Pietro (University of Roma Tre, Italy)

Tassos Dimitriou (AIT, Greece)

Xuhua Ding (SMU, Singapore)

Josep Ferrer-Gomila (UIB, Spain)

Joe Giordano (Utica College, USA)

Dieter Gollmann (TU Hamburg-Harburg, Germany)

Yong Guan (Iowa State University, USA)

Lucas Hui (University of Hong Kong, China)

Michiharu Kudo (IBM Research Tokyo, Japan)

Miroslaw Kutylowski (Wroclaw Uni of Tech, Poland)

Brian LaMacchia (Microsoft Research, USA)

Costas Lambrinouidakis (Uni of Piraeus, Greece)

Jun Li (University of Oregon, USA)

Yingjiu Li (SMU, Singapore)

Dongdai Lin (Institute of Software, China)

Peng Liu (Penn State University, USA)

Masahiro Mambo (University of Tsukuba, Japan)

John Mitchell (Stanford University, USA)

Yi Mu (University of Wollongong, Australia)

Leonardo Oliveira (University of Campinas, Brazil)

Jose Onieva (University of Malaga, Spain)

Raphael Phan (Loughborough University, UK)

Radha Poovendran (University of Washington, USA)

Indrakshi Ray (Colorado State University, USA)

Rodrigo Roman (University of Malaga, Spain)

Chunming Rong (University of Stavanger, Norway)

Rei Safavi-Naini (University of Calgary, Canada)

Kouichi Sakurai (Kyushu University, Japan)

Shiuhpyng Shieh (NCTU, Taiwan)

Krishna Sivalingam (Uni Maryland Baltimore, USA)

Jessica Staddon (Palo Alto Research Center, USA)

Angelos Stavrou (George Mason University, USA)

Vipin Swarup (The MITRE Corporation, USA)

Patrick Tague (Carnegie Mellon University, USA)

Tsuyoshi Takagi (FUN, Japan)

Patrick Traynor (Georgia Tech, USA)

Vijay Varadharajan (Macquarie University, Australia)

Guilin Wang (University of Birmingham, UK)

Haining Wang (College of William and Mary, USA)

Duncan Wong (City University of Hong Kong, China)

Avishai Wool (Tel Aviv University, Israel)

Yanjiang Yang (I2R, Singapore)

Wanlei Zhou (Deakin University, Australia)

Bo Zhu (Concordia University, Canada)

Sencun Zhu (Penn State University, USA)

**Submissions due April 5, 2010**  
**Notification by May 31, 2010**

SecureComm'10 seeks high-quality research contributions in the form of well developed papers. Topics of interest encompass research advances in ALL areas of secure communications and networking. Topics in other areas (e.g., formal methods, database security, secure software, applied cryptography) will also be considered if a clear connection to private or secure communications/networking is demonstrated.

The aim of SecureComm is to bring together security and privacy experts in academia, industry and government as well as practitioners, standards developers and policy makers, in order to engage in a discussion about common goals and explore important research directions in the field. SecureComm also serves as a venue for learning about state-of-the-art in security and privacy research, giving attendees the opportunity to network with experts in the field.

**Instructions for authors:** All submissions will be blind reviewed. The paper must be anonymous, with no author names, affiliations, acknowledgements, or obvious references. It should begin with a title, a short abstract, and a list of keywords. Submissions must not substantially duplicate work that was published elsewhere, or work that any of the authors has submitted in parallel to any other conference or workshop that has proceedings.

SecureComm'10 proceedings will be published in Springer's **LNICST** (<http://www.springer.com/computer?SGWID=0-146-6-564009-0>). The final proceedings version will be a paper of at most 18 pages in the lncs style, which corresponds to around 7000 words of text. The document submitted (excluding appendices) should correspond to what the authors expect to be published if their paper is accepted without modification. We therefore strongly recommend that authors check whether their paper (without appendices) will fit within the above lncs space constraints. Committee members are not required to review more than that, so the paper should be intelligible and self-contained within this length. Submissions not meeting these guidelines risk rejection without consideration of their merits.

Authors of accepted papers must guarantee that their paper will be presented at the conference.

**Workshops:** Proposals for one-day workshops to be held in conjunction with the conference are solicited. A maximum of 2 page proposal should be submitted, including the workshop name, its scope and a list of topics of interests. Proposals should be submitted to Workshop Chair by **April 5, 2010**. (Check the info at <http://manual.icst.org/index.php?page=workshop-chair>.)

**Tutorials/Demos:** Proposals for tutorials as well as demos are solicited. Please contact General Chair by **May 31, 2009**. (Check the info at <http://manual.icst.org/index.php?page=tutorials>.)
